Subject: Letter of Recommendation, Mr. Ed Rigsbee

To Whom it May Concern:

Occasionally we encounter people that make a significant and very positive difference in our lives. A difference in not only the way we see things but in the way we feel about ourselves and those around us as well. Ed Rigsbee is one of those unique personalities that has exhibited an ability to create a very positive difference in my life.

As a result of my newfound friendship with Ed, I have gained more wisdom, insight and awareness during the last few months than in the last several years. I feel that anyone else who is fortunate enough to spend quality time with Ed will, without a doubt, grow in life and within themselves, too.

Ed's refreshing attitude should be shared by all.

Sincerely,

GORIAN AND ASSOCIATES, INC.
