Dear Ed:

We have been having manufacturer retreats for six years here in Hawaii featuring a Mainland Speaker. As you know, the participating executives come from many of America's Blue Chip farms such as Duracell, Lever Brothers, Schering-Plough Smithkline Beecham, General Electric, SC Johnson, etc.

Your presentation on Partnering was by far the most well received and effective of all speakers we have had in the past. Your approach to the project by doing research with some of the participants, mingling with them and presenting your message in a relaxed, simple and effective manner, had everybody buzzing. You already know this cause all of them opted to get more information from you via video and print.

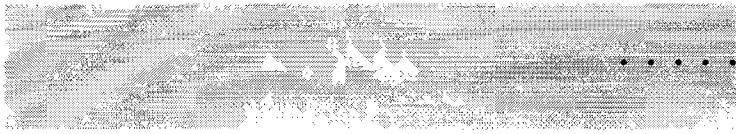

Thank you for accepting our offer to come to Hawaii. You made our retreat a smashing success!

Please stay in touch. I hope we can do something together soon.

Mahalo,

  
Greg Gomes
